

The Silkworkshop : a revealed heritage

In Lyon, city of silk since the 16th century, our family company founded in 1890, welcomes visitors from all over the world, allowing them to discover the **traditional techniques of printing & coloring of silks**.

We are the last workshop of screen-printing in France, printing by hand ! We use methods handed down from generation to generation : *the silkscreen printing also called lyonnaise printing, the block printing* as well as *the hand painting* on the exclusive so called *velvet pan*, a very local fabric made of silk and shaped velvet, which is still woven and painted in Lyon only !

Specialized in the reproduction of art, we are proud to print squares and scarves for museums worldwide as the Louvre, the Metropolitan Museum of Art...

With more than 3000 silkscreens & 8000 print-blocks, we realize 2 collections a year of a big variety of motives and colors, created by artists or our designers. The boutique offers a wide range of articles, limited series & one of a kind items : squares, scarves, ties, velvet pan, printed or painted by hand in the workshop. These exceptional creations require numerous know-how, involving not less than seven expert firms of the region ! They completely deserve the *Quality Label made in France* !

距离里昂市政厅 2 分钟距离 ! Just 2 min from the City Hall !
